

* Things to look for:

- Not hitting prescribed fuel MPG figures
- Low MPG figures
- Unexplained rising fuel costs / bills
 - you're spending more money on fuel
- Diesel spillage around your tank
- Tank fuel cap not secured properly
- Anti-siphon damaged, loose or misaligned
- Diesel cars in the car park
- Diesel spillages in the workshop

If you notice any of these things it could mean you're being targeted by thieves
